Vr roller coaster multiplayer

Notification: Requires a virtual reality headset. For more information, see VR support. VR Just fasten your seat belt and ride in one of five unique VR roller coaster experiences. Each world has completely different visuals and moods. Virtual Reality American Coasters: - Visit the dinosaur forest, take a closer look at these mighty creatures!- ride throw medieval castle, beautiful caves or even fly over the ground in the back of a huge dragon, - visit space: moon, earth in orbit, Saturn, even get kidnapped by aliens, - go under water to watch beautiful sea creatures in their natural environment, - shoot on zombies horror ghost town-UPDATE: next to the skyscrapers in the new city ride in the new city ride in the new city ride!- UPDATE: Micro world to discover the world from a bugs perspective! - UPDATE: Cartoon World!- UPDATE: Santa's sleigh trip - gift delivery mini-gameHope you will find something you're searching for. Ideal for VR's first contact to show new parson whats its VR all about, as well as a relaxing/exciting session for experienced VR users. You can always go back to the menu and choose another ride. Some rides have interactive elements like shooting zombies on a horror map. The app supports graphical quality settings in my menu, customize it to suit your needs. Use numpad 1-6 menu - to start the ride on a person who is not familiar with using motion controllers. I hope you enjoy the rides :)! I don't rule out adding more rides in the future or adding/changing the content proposed by the community. I'll be grateful for every comment. If you want to use this app commercially, please contact me or simply buy a commercial license available in the store. Also, if you want to add your logo to the app arcade use, there's such an option. In the next update I will add Motion Platform support.
